Introduction and Explanatory Notes

The 1989-90 edition of the Iowa Public Library Statistics includes data from individual libraries, state totals and averages, and analysis by region, by size and by county. Acquisitions by individual library are included in this edition. The county study has been modified to provide an actual per capita study of income, holdings and circulation for municipal libraries, county libraries, and each county as a whole. Map studies are included in the county study. Surveys from 500 libraries are included in this publication.

The second edition of In Service to Iowa: Public Library Measures of Quality takes a new approach to collection development, emphasizing turnover rate, percent of the collection added, and percent of the collection withdrawn. These collection development indicators are included in the data for individual libraries and by region. Turnover rate is listed under Circulation; % withdrawn is listed under Holdings; and % added is listed under Acquisitions in this edition of the Iowa Public Library Statistics.
